A is for Addition

Addition is the mathematics of counting.

We use the plus symbol + for **addition**. The opposite of **addition** is subtraction. We use the minus symbol - for subtraction.

B is for Base

$$2 \times 2 \times 2 \\ 2^3 = 8$$

A base number is a number being multiplied by itself many times.

An exponent is the number of times the base is being multiplied. Rather than writing $2 \times 2 \times 2$, we write 2^3 . The number 2 is the **base** and 3 is the exponent.

Chord

A chord is a straight line inside of a circle.

Chords are used in geometry and trigonometry. Each end of a **chord** touches the circle. If the **chord** passes through the center of the circle, it is called the diameter.

D is for Division

$$4 \div 2 = 2$$

Division is the mathematics of fair sharing.

Division separates something into equal parts. The number being divided is the dividend. The number used to divide by is the divisor. **Division** is the inverse (opposite) of multiplication.

The Radium Girls

Kate Moore

The incredible true story of the young women exposed to the “wonder” substance of radium and their brave struggle for justice

- This is the first book that fully explores the legendary fight of the Radium Girls, and it has been featured in the *New York Times* and *Buzzfeed*
- Narrative voice is gripping, fast-paced, and as engaging as fiction
- Establishes a solidly American historical narrative with settings in New York and Illinois, where descendants of the women still reside

As World War I raged across the globe, hundreds of young women toiled away at the radium-dial factories, where they painted clock faces with a mysterious new substance called radium. Assured by their bosses that the luminous material was safe, the women themselves shone brightly in the dark, covered from head to toe with the glowing dust. With such a coveted job, these “shining girls” were considered the luckiest alive—until they began to fall mysteriously ill. As the fatal poison of the radium took hold, they found themselves embroiled in one of America’s biggest scandals and a groundbreaking battle for workers’ rights.
