

How to Catch a Mermaid

Activity Kit

PAINT A MERMAID ROCK!

Prepare to mesmerize your little mermaids! And all you need is a few art supplies and you're ready to go. This paint project is perfect for all ages.

SUPPLIES:

- River rocks (rocks can be bought at craft stores, just make sure they are relatively flat)
- Acrylic paint (shades of blue, green, and turquoise work best)
- Small paintbrushes
- Fine-tip paint pens or metallic Sharpies
- Mod Podge

DIRECTIONS:

Step 1: Clean and dry the rocks.

Step 2: Paint the rocks the desired color. We recommend you give each rock three coats of paint. Play with the paint and have fun! Make them two or three toned by painting each rock two or three different shades of blue and/or green.

Step 3: Let the rocks dry completely (overnight is best).

Step 4: Use paint pens (silver, gold, or rose gold work well) or Sharpies to draw scales on your rock.

Step 5: Once the paint or Sharpie scales are dry, cover your rock with a coat or two of Mod Podge so the paint won't rub off.
