SANTA'S MAGIC KEY

Activity Kit

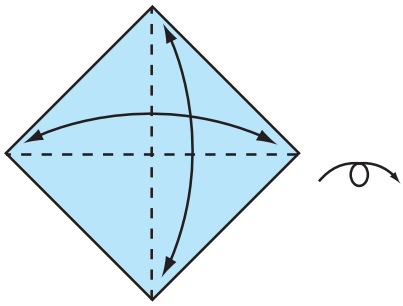
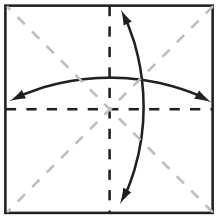
Cut the page along the dotted line. If you don't have scissors, fold back and forth across the dotted line multiple times and carefully tear the page apart. Use the green square to complete the origami Christmas pine tree.

SANTA'S MAGIC KEY

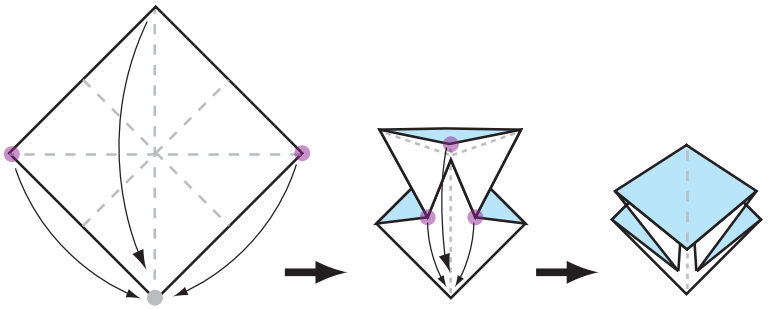
Activity Kit



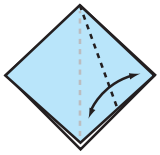
1. Start with a square piece of paper, colored side up.
Fold the paper in half, crease well and open, and then fold again in the other direction.



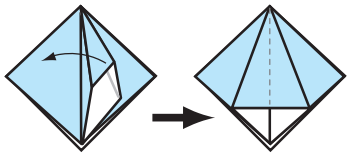
2. Turn the paper over to the white side.
Fold the paper in half, crease well and open, and then fold again in the other direction.
Your creases should look like this.



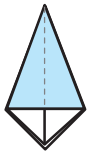
3. Using the creases you have made, bring the top three corners of the model down to the bottom corner.
Flatten model.



4. Fold toward cent er line and unfold.

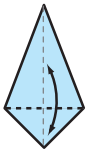


5. Using the crease you have just made, open and flatten this flap.

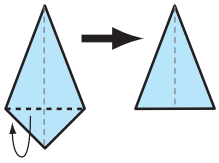


6. Repeat step 4 and 5 on the other three flaps of the model.

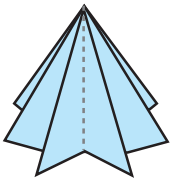
7. Now make sure there are equal flaps underneath the model and that the top flap is showing full color, like this.



8. Fold whole model along this crease and unfold.



9. Fold each full -color flap backward underneath itself.



10. Now you can adjust your pine tree so it is even all the way around, and it stands up by itself!
