**Hello!** Are you ready for a baking-inspired scavenger hunt? Please print all pages of this activity which include ingredient and utensil note cards. There is a word card and then a corresponding picture card. Cut them out, hide the picture cards, and ask the kids to find them. When asking the kids to find them, hold up the word card, say something like this: "SUGAR (holding up the card that says 'sugar'). We need sugar to make cookies sweet, right? Can anyone find the sugar?" Or "SPATULA (holding up the card that says 'spatula'). And how do we mix cookie dough together? With a spatula of course! Can anyone find the spatula?"
