ROMANCE

Casablanca presents ROMANCE ROULETTE:

a brand new series of “pick your own path” stories in which a young heroine meets three charming potential love interests and the reader chooses which romantic adventure she’ll go on.

Each book opens with an establishing series of scenes that grounds the reader in the heroine’s world before introducing her to three distinct men. The reader is then given the choice to go down **HERO TRACK ONE**, **HERO TRACK TWO**, or **HERO TRACK THREE**, with multiple branching decisions that always merge back into a core path...giving readers a high level of interactivity and re-readability while still maintaining a solid, satisfying structure.

CHRISTMAS ROMANCE ROULETTE

by Tess Avery | Book One | October 5, 2027

She’s a college student having to make a decision about what to do over the holiday break. Her parents will be gone for Christmas and her usually cheery home will be completely empty. Does she...

HERO ONE: Decide at the last moment to go home anyway, accepting a (long) ride home with her most hated rival who has been secretly pining for her for years. Forced proximity, road trip, only one bed...

HERO TWO: Accept her roommate’s offer to come stay at her family Christmas farm, which just so happens to be run by her hunky older brothers. Best friend’s older brother, (slight) age gap, mistletoe...

HERO THREE: Stay on campus over the holiday and end up spending time with a mysterious townie who works at the local bar. Opposites attract, us-vs-the-world, “bad boy tempts good girl”...

Whatever path she (and the reader) chooses, she finds love and warmth over the holiday season.

Future titles in the **ROMANCE ROULETTE** series will include:

- A SUMMER VACATION romance (May 2028)
- A HALLOWEEN romance (August 2028)
- A romance with our favorite classic TROPES (Early 2029)

Taking Sides

The Town of Sunny #1

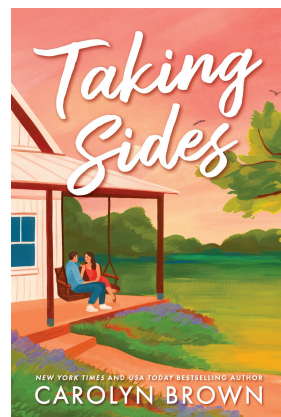

CAROLYN BROWN

Falling for the wrong person makes the best gossip.

Gabe Trimble has spent his whole life in Sunny, Texas, running the family auto shop that's been passed down for four generations—and quietly carrying a crush on Autumn Alexander ever since high school. Now Autumn is back in town, hosting a wildly successful podcast about women's rights and running against Gabe in the local election. In a town this small, everyone has picked a side, and Gabe and Autumn seem about as compatible as sweet tea and motor oil.

He was raised in a traditional Texas family. She's built a career challenging expectations. Their debates light up town meetings, their campaigns turn messy fast, and neither of them plans to fall for the other. But late-night porch talks and secret meetups under the Texas stars start changing everything.

First, they insist they aren't enemies. Then they admit they might be friends. And before long, they're sneaking around town, hiding a romance that would send Sunny's gossip mill spinning. Of course, in a small Texas town, secrets never stay buried for long. Once the truth comes out, Gabe and Autumn have to decide what matters more: winning an election—or choosing each other.

The last thing Maximilian Ruscombe wants is to be saddled with an unhinged stalker who's determined to make him out to be some kind of hero. But when Roxie puts herself in the direct path of another serial killer in order to draw him out, he has no choice but to kidnap her and take her in hand.

Only instead of showing fear at her captivity, Roxie kind of likes it. In fact, she's never had a hotter experience in her life. The Book of Forgotten Things

LUCY GILMORE

The Celebrants meets *The Readers of Broken Wheel Recommend* in this warmly funny yet emotional story of friendship and regret from the author of *The Lonely Hearts Book Club*.

Fifteen years ago, five teenagers survived a devastating forest fire thanks to an unlikely hero: gruff old janitor Cyril Tompkins. Once they escaped the flames, they went their separate ways, certain they would never see each other again.

Now Cyril lies unconscious in a hospital bed, and the five former classmates—Louise, Sebastian, Everly, Justin, and Freddie—are forcibly brought back together to care for him in his last days, despite having absolutely nothing in common...except for a single surprising fact. Over the years, each of them received a classic novel from Cyril at a pivotal crossroads in their life.

At first, the books seemed like thoughtful gifts from a distant mentor. But now the closer they look and further they begin to unravel, the more the novels feel less like acts of kindness than pointed critiques, forcing each recipient to confront old wounds, buried regrets, and the ugly scars they've spent years trying to ignore.

As long-buried secrets rise to the surface and unlikely friendships begin to bloom, the five former classmates find themselves rewriting the stories they've been telling about themselves—and each other. Because sometimes healing begins with the people who refuse to let you face your hardest chapters alone.

Trouble in Cowboy Boots

JOANNE KENNEDY

Award-winning author Joanne Kennedy is back with a brand-new cowboy romance!

When Shelby McFadden ran off with the rodeo, she never expected to wind up waitressing in Wynott, Wyoming, caring for her two boys and barely making ends meet. She doesn't have time for Marshal Matt Lassiter, but lately, he's all she can think about...

When Shelby McFadden escaped her life in a wealthy Southern suburb to run off with the rodeo, she traded country club afternoons and charity balls for pickup trucks, bucking horses, and a faithless cowboy who makes her life a misery. One busted marriage and two kids later, she finds herself in small-town Wyoming, living with her two precious boys and her ex-husband's surly grandfather.

Shelby can barely make ends meet waitressing in Wynott. There's no way she can stay—but the tall, sexy town marshal makes her wish she could. She's sworn off relationships, but Matt Lassiter is everything she should have looked for in a man. He's kind, protective, and her boys love him.

When Shelby's ex finds out she's spending time with Matt, he sweeps into town and takes the boys, leaving no trail, no matter how hard Matt tries to track him. Shelby decides she's been asking too much of life. If she ever gets her boys back, she'll never look at Matt Lassiter again—but Matt, the town, and the boys themselves are determined to change her mind.

JOANNE KENNEDY's fascination with Wyoming's unique blend of past and present leads her to write contemporary Western romances with traditional ranch settings. Her books include *Cowboy Trouble*, *Cowboy Fever*, and 2011 RITA nominee *One Fine Cowboy*.

REBECCA KENNEY

An addictive and truly original blend of dark romance, dystopian-apocalyptic worldbuilding, and horror chills from an up-and-coming indie darling.

When the apocalypse erupts during her grandparents' funeral, Teri Rawling retreats to her family's farmhouse in rural Nebraska with a handful of desperate survivors. But the walking dead gathering outside the walls are nothing compared to the evil waiting within.

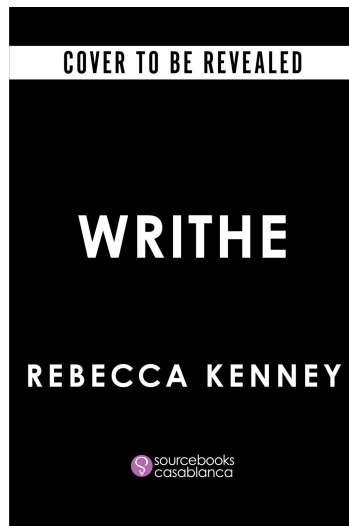

The house breathes with malice. Ghosts whisper through the halls. Nightmares wear familiar faces. One by one, the survivors are consumed by the corruption festering inside the ancient walls that should have been their shelter.

And in the shadows, something watches Teri with inescapable hunger.

Tall, grinning, made of darkness, the monster of her dreams haunts her with wicked games and dangerous temptations. He was created to torment her—to lead her to ruin—but the longer he lingers at her side, the less willing he is to obey the monstrous force commanding him to take her life as easily as he claims her body.

But with terror swarming outside the house and evil crawling within, their options for escape are limited, and the only path to survival may lie in what they're willing to sacrifice for each other.

REBECCA KENNEY writes spicy fantasy romance about sassy, strong women and hot guys with tragic backstories... pirates, warlords, demons, Fae, and royals. Her main series are the Wicked Darlings series (spicy Fae retellings of the *Nutcracker*, *Wonderland*, and *Oz*), the Dark Rulers series (standalones in a shared world), and the For the Love of the Villain series of genderbent fairytales.

A Rose of Blood and Binding

The Middlemist Trilogy #3

CLAIRE LEGRAND

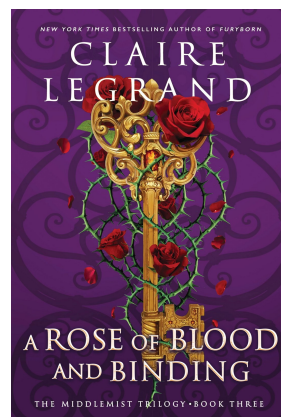

Third in the enchanting, sexy romantasy series from *New York Times* bestselling author Claire Legrand, perfect for readers of Sarah J. Maas and Jennifer Armentrout.

War is raging in Edyn. The battered Middlemist can barely hold itself together. Olden monsters terrorize the land. The gods are awakening from their ancient slumber, but if the vengeful Kilraith destroys them, all will be lost. And it's up to the Ashbourne sisters—demigods, daughters of the goddess Kerezen—to stop him.

But the sisters are spread thin. Gemma and Talan travel the world in a desperate search for the gods. In the capital, Farrin and Ryder shelter countless refugees amid rolling unrest. And Mara Ashbourne, bound to the Middlemist and longing for a home she can never return to, is just trying to survive.

Every day is chaos as Mara battles invaders and fights to protect her fellow Roses. The presence of librarian Gareth Fontaine doesn't help. Charming, brilliant, far too confident, and annoyingly reverent of the Roses—and Mara most of all—he's a distraction Mara can't avoid or afford. Especially since she can see the shadows of Mhorgast brimming underneath his dazzling smile. Shadows of violence, suffering, and shame that she knows all too well. Shadows that terrify her more than any monster.

As Mara and Gareth search the Old Country for Kilraith's final three curse-anchors—and for signs of the late queen Yvaine—a slow-burning passion born of sorrow and solace sparks between them, one that could finally bring Mara to the very home she longs for... or drive her toward the dark fate she secretly craves, and bring both worlds crashing down alongside her.

Nothing binds like blood...Talin Keller escaped the Prophet's grasp—but not his plans. Bound by a supernatural connection to the diabolist known as the Warden, every wound, every sin, and every step toward the Bloodrot now threatens them both. Hunted across Sundbourg after the Prophet brands Talin the architect of one of the country's greatest tragedies, they have nowhere left to hide.

As Talin's Bloodrot accelerates and terrifying hallucinations begin to blur the line between memory and madness, the only hope of survival lies in uncovering the truth behind the ancient origins of the diabolists and the mysterious figure who first created them. But the answers are buried within the very faith that destroyed Talin's childhood, forcing her to return to the world she burned down and the ghosts she thought she'd left behind.

Meanwhile, the Prophet tightens his grip on Sundbourg, turning fear into power as he wages war against sinners and the monsters he claims to oppose. With revolution brewing, loyalties splintering, and the dangerous bond between Talin and the Warden growing ever more consuming, they'll have to decide whether they're willing to sacrifice everything for a chance at freedom—or become the very monsters the world already believes them to be.

An exciting new spicy Omegaverse Why Choose series that blends epic fantasy with the modern-day world, perfect for fans of Katee Robert, Jeneane O'Riley, and Ali Hazelwood.

Over two hundred years ago, omega, alpha, and beta Varra left their dying world and crossed the veil to bring their magic to Earth. There the Varra formed their own secret communities in which the strongest courts ruled, while the humans remained oblivious to the strangers in their midst. But as time passed, their connection to their once-great power dwindled and now omegas are as vanishingly rare as they are desired.

Lucy is tossed right into the middle of the scheming high-court packs, all of them wanting to use her magic to gain a foothold in the palace hierarchy...and straight into the path of Alpha Lincoln Aeon, presumptive heir to the ruling court, who sends her instincts haywire. JENEANE O'RILEY is an author of whimsically dark and romantic fantasy books. Her love of storytelling began as a small child, dreaming up glorious fantasies to fall asleep to. As she has grown older, her love of storytelling remained, but the tales grew more dangerous and filled with toe-curling tension. She is a Hobby Mycologist and nature enthusiast that resides in Ohio, until she can locate a proper bridge to troll, or perhaps a large tree, spacious enough to hold her smoke show of a husband, her Irish wolfhound best friend, pet dove, and of course her three children.

A Killer's Guide to Falling

KRISTIN WOLLETT

The Unhoneymooners meets *The White Lotus* in this Hawaii-set romantic comedy where a cynical mystery writer fake-dates a resort heir for research after her romance-writing co-author is left at the altar, only to find herself pulled into an investigation ripped from her own book and a romance she never saw coming.

Eve writes the murders. Harper writes the romance. Together, they're the bestselling duo behind *Love, Lies & Alibis*. But just weeks before their big-deal manuscript is due to the publisher, Harper gets left at the altar—and their manuscript falls apart with her.

Eve's solution? Turn Harper's nonrefundable honeymoon into a two-week Hawaiian writing retreat. One problem: Harper's too heartbroken to write a single swoony word. And Eve—the murder half of the team—doesn't believe in love anyway.

Then a bride goes missing at the resort, and Eve crosses paths with Miles Overton: gorgeous, charming, and way too suspicious for comfort. He's also her only ticket into the couples-only activities she needs for "research."

So they strike a deal: fake date their way through paradise. She gets the romance scenes, he gets help finding the missing bride—and they both pretend not to fall for each other.

But when a plot twist straight out of one of Eve's books blows everything up, she'll have to decide: play it safe and walk away—or rewrite her ending and bet big on real love.

Murder, margaritas, missing brides, and a love story no one saw coming—except maybe their readers.

Cold Hearts

PHILIPPA YOUNG

When an asteroid hits a small town in the UK, Frankie “awakens” to unwittingly cause a zombie apocalypse. A year later Frankie is trying to fill her lonely days by sticking to her strict vegetarian (animal brain only) diet and trying to figure out how she died. As if the universe was listening, she hears the faintest heartbeat of a little girl named Bea hiding in a cupboard after zombies infiltrated her family home. Frankie didn’t expect that her only friend would be a 5 year old, but she becomes attached to Bea and must figure out how to keep a child alive while knowing nothing about survival.

When Frankie discovers a hidden door to a former bunker hotel in the woods, she hopes that she’s found the people who can truly take care of Bea, but instead she’s met with the reluctant hero of the zombie apocalypse, Griffin, who doesn’t trust that all Frankie wants is help for her tiny friend. After Griffin confiscates Frankie’s only weapon, a hammer strapped to her thigh, he allows Frankie and Bea to stay, just for the night, so Bea can get some food and water. Frankie will not admit that she liked the way his hand lingered on her thigh while he removed her weapon—nope, won’t do it.

One night turns into 2 nights, which turns into permanent residency thanks to Griffin’s inability to say no to Bea. And meanwhile, Frankie is desperate to keep her undead identity a secret by sneaking the tiniest bites of animal brains from her trusty thermos. She’s not quite sure what could happen if she lets herself starve, or rather she is...but it isn’t pretty. She can’t risk snacking on their found family and the growing attraction between her and Griffin puts her mouth dangerously close to certain parts of his body. Thankfully, after earning a trusted ally within the bunker, she’s able to sneak out in the night to feast.

As the events around them become more and more precarious, can Griffin learn to prioritize living over surviving? And how long can Frankie keep her secret? She’s not dead enough to be a true zombie and definitely not alive enough to be entirely human. Surely this can’t be a dealbreaker, right?

KD ALDYN

From the author of *Sister, Butcher, Sister* comes a chilling dark thriller perfect for fans of *Killing Eve*, following a criminologist with a strict moral code and a serial killer that makes her own rules who enter a deadly game of cat and mouse, one that will leave you questioning if there can be such a thing as an inherently evil person...

Eleanor Robinson is a serial killer. Wicked, cunning, and eerily charming, she's been incarcerated in a psychiatric wing for five years after being found guilty by reason of insanity. Now, her lawyers are campaigning for her release, based on her allegedly now sound mind.

Criminologist Cooper Andreatta has a strict belief that no person can be born evil. To her, it is something that must be made. Renowned for her expertise on killers and their motives, Cooper is hired to evaluate Eleanor for potential release. But as she spends more time with Eleanor, she finds herself becoming increasingly obsessed with the mystery of the all-too-likeable killer, who's fast intelligence and dangerous eyes seem to know a few to many things about Cooper herself.

When Eleanor is released to a transitioning facility despite Cooper's recommendation, Cooper hopes this is the end of their strange relationship. That is, until a body is found at the same facility Eleanor was sent to. Then another. Now, Cooper finds herself in a race against time and a fight against her long-held belief that there is no such thing as an inherently evil person.

Then They Began to Crawl

A Novel

MALLORY ARNOLD

From thriller-horror maven Mallory Arnold comes a pulse-pounding thrill ride for fans of Riley Sager's *The House Across the Lake*, following a disgraced woman who returns home a decade after the tragedy that destroyed her life only to find that she's being hunted by the dead girl she thought she'd left behind.

Ten years after fleeing her Vermont hometown, Sloan Blackwood returns to Silver Lake following the sudden death of her parents. Her plan is to be in and out – clean the house, sell it, and get out of dodge before the past she's been running from catches up to her.

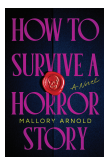

But what Sloan finds in Silver Lake is nothing like she expected. While staying in their family lake cabin with her estranged sister, Sloan begins to hear strange voices, see twisted memories, and despite her cleaning, cobwebs begin creeping in despite how often they're swiped away. At night, Sloan is tormented by dark dreams and by day she feels herself succumbing to the same hallucinations that had her fleeing town. Hallucinations centered around one strange girl and the brutal act that Sloan helped set into motion all those years before.

Except they might not be just hallucinations. Something in the house is lurking, crawling ever closer. And when her sister is taken by the being and turned into something monstrous, Sloan realizes she's being hunted.

It seems the ghost of Mara Crow has returned to Silver Lake, and she's out for blood. For ten years the truth of Mara's death has stayed hidden, but now whatever is stalking Silver Lake is determined to finally make someone pay.

MALLORY ARNOLD is an editor and writer who resides in Nashville, Tennessee with her husband and three cats. She's part of the Women's Fiction Writer's Association and enjoys writing drama, thrillers, and horror.

This House Has a Murder Problem

A Mystery

NICOLAS DIDOMIZIO

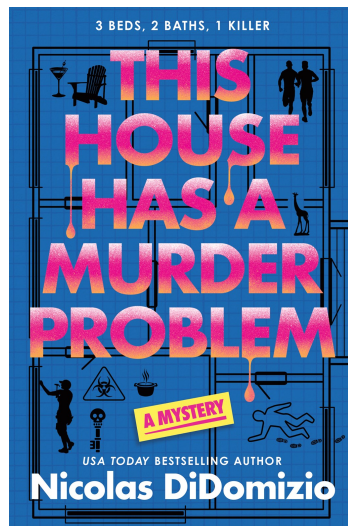

With odes to *The Saturday Night Ghost Club* and the tongue-in-cheek voice of Benjamin Stevenson comes a cozy mystery-horror set in a world where all houses are haunted, so picking the right ghost is just as important as picking the right floorplan. Especially if that house is haunted not only by a spirit but also a flesh-and-blood killer. . .

Spencer and Eddie would give anything to leave their cramped West Village, New York City apartment behind for a real house. Unfortunately for them, houses don't just come with huge price points and high interest rates, they come with the ghosts that inhabit them. The market is hot with buyers searching for the perfect ghost—after all, you can rip up old carpet, but you can't just ditch a bad haunting.

And as it turns out, the ghosts in Harmony Falls in upstate New York are much more charming than the city apartment ghosts Spencer and Eddie are used to. But the sweeter the ghost means the higher the price, and with their budget constraints, their dream of a quaint house in the center of town slips right through their fingers.

When Spencer and Eddie bring on a matter-of-fact new realtor who connects them with a house firmly within budget full of lake views, rustic charm, and a curmudgeonly but lovable ghost, they finally have hope that their luck might change. Except, they keep waking up to strange noises at night. And all the previous owners vanished without a trace. Something is o. in their new dream house. And it might not just be the spirit that's haunting them, but a real-life killer...

NICOLAS DIDOMIZIO holds a bachelor's degree from Western Connecticut State University and a master's degree from NYU. His debut novel, *Burn It All Down*, was published in 2021 and praised as "unforgettable" by James Patterson. He lives in upstate New York with his partner Graig and their shmooshy bulldog Rocco.

No Road Is Walked Alone.

After surviving years of war, soup mage Thorne Everleigh and his best friend Dell Shepherd dream of a quiet place to put down roots, where every tomorrow is more likely to bring fresh bread than battles. The quirky community of Cloven Valley seems perfect, but there's just one catch: the first time Thorne cooks in his new kitchen, his cauldron fills not with soup, but with tiny creatures made of pure chaos with very strong opinions about...well, everything.

Most people would flee a home overrun by imps, but Thorne and Dell have spent enough of their lives running. This time, they stay. And as Cloven Valley's delightfully peculiar residents fold them into their community, the scars of war slowly begin to fade. Between negotiating with their new imp roommates, befriendng a cupcake warlock and the local tome witch, and dodging rampant speculation about their relationship, Thorne and Dell begin to believe something they never thought possible: They've finally found home.

But Cloven Valley is quietly fading. Something—or someone—is causing the ancient magic that has sheltered the town for generations to fail, and unless Thorne and Dell can save it, the haven they've only just begun to love may become yet another place they'll have to leave behind forever.

AUTUMN ENGLAND grew up on the Space Coast of Florida watching shuttle launches from the backyard. These days, they live on a micro-farm in rural Virginia packed with video and board games, plants, D&D books, and their kindergartener's giant personality. They're probably covered in dirt right now.

It's Always the Sister

KAIRA ROUDA

From *USA Today* and Amazon bestselling author Kaira Rouda comes a wicked tale of love, loss, betrayal, and greed. Set in the high-stakes world of investment banking and speculation, a young woman goes up against the power elite to prove that her sister was murdered to cover up corporate fraud.

She came to ruin the wedding; someone else came to kill the groom.

Cassie and her older sister Lisa have always been close, especially since their mother killed herself after being defrauded of her life's savings by a Ponzi scheme, and Lisa stepped in to raise Cassie. Now both adults, Lisa is an up-and-comer at EXO Capital, while Cassie is a reporter at a dying business newspaper. Lisa has always reached high, but when her affair with the CEO's son abruptly ends so that he can marry within his station, a couple details like corporate fraud and Lisa's pregnancy are best dealt with swiftly—and irreversibly.

So Cassie does what any good sister would do—she gets herself invited to the son's wedding in Portugal, where she plans to unmask the guilty party in front of his peers. But accountability and justice are elusive after a body washes ashore the morning of the wedding, and all eyes turn to Cassie, who was the last to see the victim alive. As her carefully constructed ruse begins to unravel, Cassie finds that she is a murder suspect. With the help of a journalist, she races against time to find evidence against the true guilty party, to exonerate herself and to secure justice for her beloved sister—or die trying.

If I'm Gone

YVONNE VENTRESCA

What would you sacrifice to keep your loved ones safe?*Dear Vienna,*

This story is my last gift to you, but it's not wrapped in a pretty bow. I'm telling you upfront, so you won't be surprised: There won't be a happily ever after. At the end of the novel, you can choose what to do. This manuscript is the best chance I have to share what happened leading up to May 23. I'm sorry to leave you with mere words on paper. It feels intimate—I've chosen each phrase with care—yet impersonal. I wish I could be by your side as you read. But I'm afraid, Vienna, this was the only way.

Because if you're reading this, I'm gone.

When Stevie vanishes on a random Thursday, she leaves behind a fiction manuscript that eerily mirrors the author's own life: a former young adult novelist grieving her husband's sudden death, her daughter's faltering marriage, and an anonymous stalker who threatens her sense of safety.

Determined to discover what happened to Stevie, her daughter delves into the unpublished novel and Stevie's private life. But reality and fiction collide when the manuscript exposes suspicious circumstances, and every page brings her closer to the most dangerous secret of all.

YVONNE VENTRESCA is an award-winning YA author with an MFA from Vermont College of Fine Arts and an MBA from New York University's Stern School of Business. *If I'm Gone* is her adult thriller debut. She serves on the Mystery Writers of America New York Board and has mentored other writers through the Association of Writers and Writing Programs and Mystery Writers of America. She's also a member of Sisters in Crime, Liberty States Fiction Writers, and International Thriller Writers.

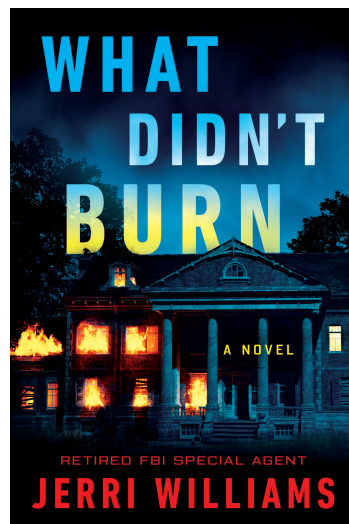

What Didn't Burn

JERRI WILLIAMS

**With a gun you can steal thousands...
with a lie, you can steal millions.**

Special Agent Zip McMathis needs a change. After seven years on the FBI's drug/gang squad targeting mostly low-income youths of color, Zip's husband and her conscience have convinced her that her soul might be better served solving crimes motivated by greed, vs. unfortunate circumstances. Plus there was that VERY public blowout with her partner, witnessed by the whole department...an undeserved dressing-down of the man she'd loved and respected and entrusted her life to. How could he know when he asked Zip to comfort a crying baby that she'd just suffered yet another miscarriage? Or that the five children he and his wife produced in five years were a cruel reminder of her own fertility struggles? She never explained; instead, she requested a transfer.

Now part of the white-collar crime division, Zip is assigned her first case: a potential arson-for-profit scheme by a wealthy socialite who appears to be funding her extravagant lifestyle by repeatedly torching her estate and collecting the insurance payouts. But this most recent fire has raised the stakes; this one claimed the life of the socialite's much younger husband. While both the fire and police officials have ruled out foul play, Zip soon learns that the socialite's money and influence have bought her friends in high places. Was this third fire motivated by simple greed? Or was it also a convenient way to be rid of an inconvenient spouse?

The Memory of Borrowed Books

A Novel

MEG ANDERSON

With the emotional resonance of *How to Read a Book* and the magical edge of *The Last Bookshop* comes a stunning ode to community following one librarian who discovers a mysterious room with shelves of her patron's unfinished memories, and the one memory that might save both herself, and her library, from disappearing forever.

In the New England coastal town of Foxhollow Bay, librarian Claire Ashford lives quietly tucked away in the centuries old library where she works, keeping all things, herself included, in order. But when the town threatens to shut down the library, Claire is bereft to know her safe haven will be no more. That's when, while wandering the shelves after hours, she finds a door that shouldn't exist, and behind it, a room filled with books that no one else can see.

Every book she opens pulls her into someone else's memory. Unfinished stories and snippets of lives that have passed through the library long before her. And when she opens a book showing her a bridge with a figure standing in the center, the memory refuses to let go, calling to her in a way that she cannot explain. And when she meets Julian Thomas, a patron who sketches the same bridge she's been seeing, she realizes their lives may be tangled in ways neither of them fully understands.

With time running out and the library on the brink of being demolished, Claire must confront what she's spent years trying to erase, the memory she has locked away that is fighting to get out, before the truth and the library itself are gone forever.

A story dedicated to the selves we leave behind and the magic that lies in rewriting our own stories, perfect for fans of Evie Woods and *The Echo of Old Books*.

In a charming small-town, burned-out bookseller Evie Monroe feels erased by motherhood. She loves her husband and children yet can't shake the ache for the woman she used to be—the one who wrote stories, chased dreams and believed her life would be more than routine.

One afternoon, after an especially heavy day, Evie wanders into the woods and stumbles upon a little lending library. Inside is an old paperback with a handwritten note tucked inside. On impulse, she writes back. Soon, new letters begin appearing—heartfelt, intimate and strangely familiar, as if the mysterious writer knows her life too well.

The Almost Wife

A Novel

JENNIFER COBURN

In the spirit of *The Mad Wife* and *The Book Club for Troublesome Women*, *The Almost Wife* follows a New Jersey girl whose abruptly canceled wedding ushers her into an unexpected arrangement in the bohemian heart of 1950s New York City.

Newly single Angela Sabatini is finally in New York City, forging her own path after a last-minute breakup with her hometown fiancé. An aspiring photographer, she reconnects with an old friend from school who needs a fiancée—and fast. But just for an hour or two. And he's not the only one.

Based on the experiences of Jennifer Coburn's mother, who posed as a fiancée and girlfriend for gay men in the 1950s, *The Almost Wife* draws a lush, evocative portrait of Greenwich Village at the height of bohemia. A sheltered suburban girl discovers the city—and herself—by pretending to be someone she's not, in a time when exposure could cost some people everything.

JENNIFER COBURN is a *USA Today* bestselling author of four contemporary women's fiction novels. She has contributed to four literary anthologies. Two of her novels were chosen as winners in the Best Fiction category of the San Diego Book Awards. She is currently working on a travel memoir.

First Love Last Love

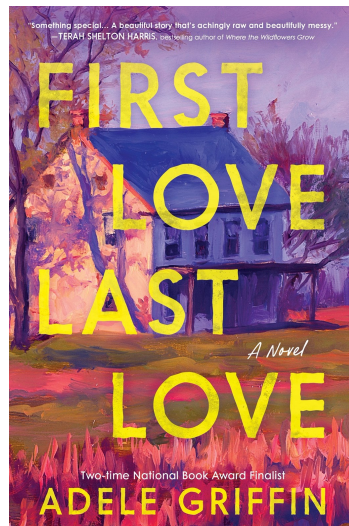

A Novel

ADELE GRIFFIN

For fans of *Daisy Jones and the Six* and *A Star Is Born*, Adele Griffin's *First Love Last Love* is a deeply romantic, emotionally sweeping novel about first love, fame, and the long road to finding yourself—even if it takes a lifetime.

Vida Jamison has spent years building a life she can count on—steady job, solid marriage, a teenage son who still occasionally lets her hug him. But all it takes is a winter storm, a grocery run, and a familiar voice speaking her full name—Vida Marie—to turn certainty into quicksand. Elijah Beck, her first love and most enduring wildcard, is back. Rock star, Grammy nominee, a walking tabloid headline, and the one person who has always known how to get under her skin. He swears he's here to fix what's broken—maybe himself, maybe them. But when a collision, both literal and emotional, lands them in the hospital, Vida has to face the question she's spent two decades avoiding: Is Elijah her greatest mistake, or the love she was always meant to find again? Because first love doesn't always fade. It imprints and echoes. Sometimes, it waits.

Elijah, for all his talent and magnetism, has spent a lifetime being wanted but never quite held—by the industry that made him famous, by the people who adored him from a safe distance. Once, Vida never looked away. As children, they spoke in a language only they knew. As teenagers, they built a world inside the walls of Sparrowbank, the house where Elijah's mother took Vida in when she needed it most. And now, time seems to fold in on itself, the years collapsing between them, as if no distance ever existed at all. Against all odds, here they are again, locked in the same charged pull—part history, part heartbreak, in a half-written song neither knows how to finish. But nostalgia is a tricky thing. The past can pull you under just as easily as it can set you free—and this time, they might not have a choice.

Accidents Never Happen

A Novel

PENNY ZANG

For fans of *Long Bright River* and *Bright Young Women* comes a riveting suspense injected with the gothic presence of Edgar Allen Poe, following two outcast sisters and the serial killer who tears them apart.

Let me tell you a story about sisters.

Baltimore, 1985. Mad is still processing the night her father disappeared. Before, she and her sister Annabel lived alone above Goldie's, the family bar, where they spent their nights listening to Blondie, reading Edgar Allen Poe, and dreaming of unsure futures. Now that it's clear he's never returning, Annabel has become reclusive, neighbors have started spreading damaging rumors about the family, and Mad is struggling to keep Goldie's afloat. When a photo makes it look like there's a ghost in the upstairs window of the bar, the sisters decide to make up a haunting tale based on none other than Poe to put them back on the map. Because who can resist a good bar story, especially a haunted one?

But as news of their fabricated story spreads, Annabel suddenly goes missing. And she isn't the only person to disappear. A killer is prowling the streets, one who leaves a calling card every time a body is found: dead roses and a bottle of sherry, the same gift the infamous Baltimore Poe Toaster leaves every year at the poet's grave.

Did their fake ghost story draw the attention of a murderer, and could their missing father somehow be involved? As Mad races to find her sister, she'll have to confront the haunting corners of the world she thought she knew, before it all goes up in flames.

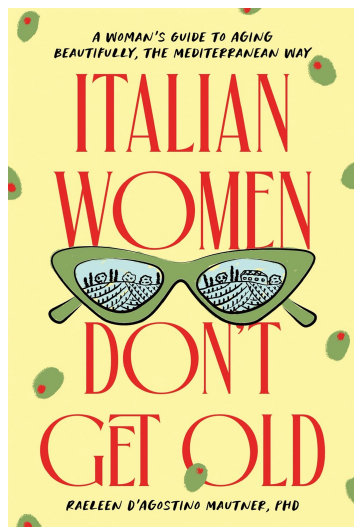

PENNY ZANG is an English professor and holds an MFA in Creative Writing from West Virginia University. Her work has appeared in *New Ohio Review*, *Louisville Review*, *Superstition Review*, and elsewhere. She lives in Greenville, South Carolina with her husband and son.

A Woman's Guide to Aging Beautifully, the Mediterranean Way

RAELEEN D'AGOSTINO MAUTNER

An Italian-inspired path to beauty at every age.

In a culture obsessed with youth, aging can feel like a losing battle. Wrinkles are erased, bodies are scrutinized, and women are told—implicitly and explicitly—that relevance fades with time. But in Italy, women live by a radically different philosophy.

Italian Women Don't Get Old reveals the Mediterranean secrets of confidence, vitality, and grace that keep *la donna italiana* radiant at every age. Rather than fighting time, Italian women embrace it—cultivating a beauty rooted in self-respect, pleasure, presence, and care for both inner and outer life.

Drawing on body image research, psychology, and the lived wisdom of Italian women themselves, *Italian Women Don't Get Old* offers a practical, empowering framework for restoring a positive relationship with your body—one that enriches your interior life, your outer world, and your daily self-care rituals.

Readers will learn how to:

- Enhance emotional well-being by surrounding themselves with beauty, meaning, and pleasure
- Practice Italian-inspired self-care rituals that support both confidence and vitality

This is a celebration of beauty that deepens with time—and of a life lived with intention, confidence, and joy.

RAELEEN D'AGOSTINO MAUTNER PHD is a self-help specialist who advocates preserving Italian cultural wisdom and traditions as the road to physical and emotional well-being. She is an internationally acclaimed author, speaker, and radio personality.

Killing Miss America

NINA DAVULURI

The first South Asian Miss America, Nina Davuluri tells the story of family expectation, body image, and inherited addiction—and how she ultimately broke free to challenge the beauty standards that shaped her.

Killing Miss America is a fearless, deeply personal memoir from the first South Asian Miss America, Nina Davuluri, tracing her journey from the daughter of Indian immigrants to the national stage—and beyond. Raised with the expectation that she would pursue a “respectable” career in medicine, Davuluri instead chased a different kind of perfection, reshaping herself to fit narrow, white American beauty standards while battling a growing sense of disconnection from her own identity.

Through dance and the pageant world, Davuluri found both escape and validation, ultimately earning the titles of Miss New York and Miss America 2014. But beneath the crown, Davuluri was unraveling. Under relentless public scrutiny—and in the shadow of her father’s alcoholism and death—she grappled with addiction, body image, and the cost of living up to impossible ideals.

Unflinching and ultimately hopeful, *Killing Miss America* is a story of breaking cycles, reclaiming identity, and redefining beauty on one’s own terms.

In Search of Walking Sharks

Why the Future of Wildlife Depends on Breaking the Rules

FORREST GALANTE

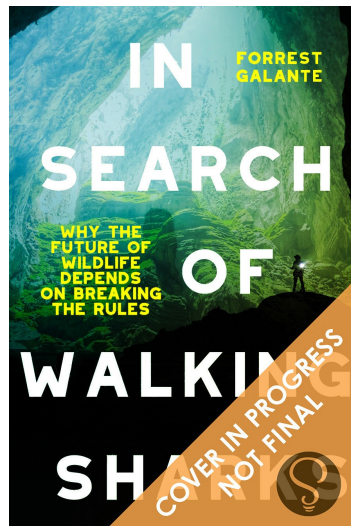

We can save the planet, but first we need to break the rules.

It's no surprise that the natural world around us is struggling. Climate change, destruction of vital ecosystems, loss of biodiversity—the list can feel never ending. But Forrest Galante, wildlife biologist, conservationist and television host of Animal Planet's *Extinct or Alive*, has a motto to saving the planet—"get sh*t done." Yet this can be easier said than done. Too often, the scientific institutions that have the welfare of the environment at their heart are also the slowest to move. And while our institutions fiddle, our wildlife and their habitats burn.

But what would the world look like if we broke the rules and implemented the mindset of radical conservationism? What projects might demand our attention, our creativity, our passions? And ultimately, how can we put aside irrelevant priorities to actually deliver for the planet?

From "The Indiana Jones of Biology" comes an enlightening and fearless journey, not only showing readers the current state of wildlife conservation but giving a behind the scenes look at his epic adventures across the globe, sharing incredible animals, habitats, and remote communities as he and others like him engage in radical conservation. From bucking the system to scuba dive beneath glaciers in wild Alaska, to saving African elephants in a remote village, to wrestling 20-foot-long snakes, to giving an inside look at the de-extinction of the Dire Wolf, and yes, even searching for walking sharks. Because ultimately, we need to expand the boundaries of what conservation can look like.

The future of wildlife depends on it.

The Parenting Gap

CAITLIN GREER MEISTER

By redefining executive functioning as “capable kid skills,” this book translates abstract science into practical parenting, equipping families with a clear way to build independence while reducing daily friction and overwhelm.

This is a practical, science-backed parenting guide that tackles one of the biggest challenges facing modern families: how to raise independent kids without burning out in the process. Drawing on her experience working with thousands of families, executive skills coach Caitlin Greer Meister reframes everyday struggles—like not listening, unfinished homework, and constant reminders—not as behavioral problems, but as missing skills.

By translating executive functioning into accessible “capable kid skills,” Meister gives parents a clear, actionable framework for teaching kids how to manage tasks, regulate themselves, and take on real responsibility. The result is a powerful shift: as kids become more capable, parents can step back, reducing their mental load and daily friction.

Filled with relatable scenarios, practical strategies, and immediately usable tools, this book cuts through the noise of conflicting parenting advice to offer a realistic path forward. The payoff is not just more independent kids, but calmer days, stronger connection, and a more sustainable, cooperative family life.

CAITLIN GREER MEISTER is a parent educator, instructional leader, and founder of Joyfully Learning, as well as a mother of two. She helps overwhelmed parents and teachers support children using practical, evidence-based strategies that build confidence without adding to mental load. Manipulate, Gaslight, Exploit, Lie

How Toxic People Steal Your Power—and How to Take It Back

DR. TAMARA MCCLINTOCK GREENBERG

**Uncover the patterns of people who want to hurt you
—and protect yourself for good**

We've all found ourselves in toxic relationships—the boss who takes credit for your work, the in-law who ignores boundaries, the friend who betrays your trust, the partner who says all the right things but does all the wrong ones.

It would be nice to believe we can simply avoid people who hurt us. But the truth is, manipulative and exploitative individuals are everywhere. And for many of us, our own histories—old wounds, unmet needs, unresolved trauma—can make us especially vulnerable to their tactics.

The real question isn't, *How do I avoid toxic people?*

It's, *How do I recognize the tools they use—and protect myself before the damage is done?*

In *Manipulate, Gaslight, Exploit, Lie*, psychologist Dr. Tamara McClintock Greenberg exposes the common tactics destructive people rely on to control, destabilize, and use others. She reveals:

- The most common personality patterns behind manipulative behavior
- The psychological tools toxic individuals use to gain power
- Why certain traits and past experiences can make us more susceptible
- The subtle warning signs most people miss
- How to set and enforce boundaries that actually work
- When to repair a relationship—and when to walk away

But this book isn't just about identifying harmful people. It's about understanding yourself—why you may be drawn toward certain dynamics, how to interrupt destructive cycles, and how to become more confident, assertive, and grounded in your needs.

With practical tools and psychological insight, *Manipulate, Gaslight, Exploit, Lie* will help you protect yourself from toxic relationships—and build healthier, more secure connections instead.

TAMARA MCCLINTOCK GREENBERG, PsyD, MS is a licensed clinical psychologist in private practice in San Francisco. How to Get Worse

A Guide to Better Living Through Bad Behavior

KYLE PRUE

Stop striving for perfection—and start running a little wild.

Over the past decade self-help and wellness have surged into trillion-dollar industries, all by making a simple promise: that you are one purchase away from finally being finished. Perfect. Happy.

But what if the cost of personal optimization is our humanity?

In *How to Get Worse*, *New York Times* bestselling author Kyle Prue uses hilarious personal stories, sharp cultural critique, and just enough psychology to sound legitimate to advocate for eschewing perfection and embracing the bad behaviors that have been vilified by wellness culture.

The philosophy of Prue urges readers to start a cult, learn to fight, have a fling, and party on—among other forms of socially unacceptable behavior. Why? To pursue something greater than personal optimization: The preservation of our humanity. Instead of endlessly protecting your peace or chasing the next round of self-improvement, Prue makes the case for finding community, building intimacy, and embracing the messy connections that make life worth living. Beneath the irreverence, snark, and occasional scumbaggery is a surprisingly sincere idea: being flawed, embarrassing, rude, and occasionally awful may be less a sign of failure than proof that we're alive.

KYLE PRUE is a famous author and gender traitor. He was untimely ripped from his mother during the Detroit blackout at the ripe age of zero. As a child he was expelled from two elementary schools and the Catholic Church. As a teenager, he attended a philosophy-oriented high school, where he built a shrine to Thomas Hobbes in the woods. He attended college at the University of Michigan, where he studied narcissism and love bombing (acting and poetry). He lives in Los Angeles with two roommates and a tapeworm (all parasites).

The Little Book of Loss Rituals

75 Practices for Grieving, Mourning, and Healing

STEPHANIE SARAZIN

The perfect companion in times of grief and sorrow.

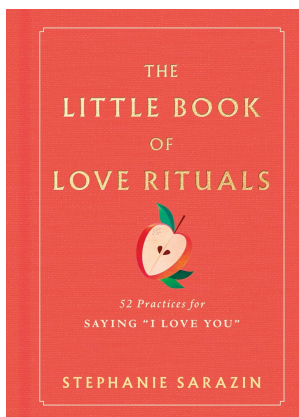

In life, loss is inevitable, and though grief is a normal response to loss, most of us were never taught what to do with our grief—or how to support others with theirs. This is especially true when enduring non-death losses like a miscarriage or a divorce, where a lack of societal norms—for example, holding a funeral—often causes our grieving to become ambiguous. Yet, any important loss can activate grief, and as emerging research shows, acts of grieving, like performing rituals, help us heal.

The Little Book of Loss Rituals offers over 75 gentle, practical actions to help honor what was, hold what hurts, and slowly rediscover life.

Inside, you'll discover how to:

- Name the many kinds of loss—death, breakups, illness, moves, identity shifts, disappointments—and permit yourself to grieve them all.
- Incorporate accessible, meaningful grief rituals in your life, whether you have five minutes alone or want to include friends and family.
- Create heartfelt rituals that fit your beliefs, culture, and comfort level, ideally suited to honor your griefy needs.
- Build ongoing practices that help you stay present to your pain and your aliveness, healthfully integrating grief as a part of you, not something that defines you.

Presented through an affirming mix of traditional global grieving practices and poignant personal narratives, *The Little Book of Loss Rituals* invites readers to explore rituals like never before; by remembering our loss, releasing pain, reconnecting with others, and recognizing rituals as our ancestors did for millennia—as a powerful tool for healing.

The Little Book of Love Rituals

52 Practices for Saying "I Love You"

STEPHANIE SARAZIN

Love, actually, is more than hearts and roses.

Love has become a \$27-billion industry—Valentine's Day, elaborate weddings, anniversary pressures, promposals, and more. Somewhere in the rush of Valentine's Day aisles and rom-com fantasies, we started believing that love is mostly roses and romance.

But real love has always been more expansive. The ancient Greeks identified many forms of love—deep friendship, family devotion, playful affection, unconditional care, even the love we hold for our communities and the wider world. And in a time when division keeps pulling us apart, rediscovering these forms of love matters more than ever.

The Little Book of Love Rituals helps us return to what love truly is: a daily practice.

In these pages, you'll find:

- The seven types of love, as described by the ancient Greeks, from agape to storge.
- 52 rituals designed to help you nurture connection—with yourself, with others, and with what brings meaning to your life.
- A new framework that both illuminates the timeless nature of love and helps readers recognize the many forms of love in their own lives.

Simple, grounding, and intentional, these rituals offer small moments of intention that strengthen the bonds that already surround you.

The Laws of Optimism

Why Believing in the Best Changes Hearts, Minds, and the World

GRACE VANDERHEI

Believe in the best to spark change for good

In *The Laws of Optimism*, former Miss America and nuclear engineer Grace Vanderhei reframes optimism not as blind positivity or wishful thinking, but as a powerful, learnable skill—one that fuels action, resilience, and meaningful change. Drawing on science, psychology, and deeply personal storytelling, Grace shows how believing in the best for yourself creates a chain reaction: optimism strengthens motivation, motivation sparks action, and action reshapes outcomes.

Blending real-world research with lived experience, *The Laws of Optimism* reveals how small shifts in belief can unlock momentum in your personal life, your relationships, your workplace, and beyond. From navigating setbacks to standing firm in uncertain moments, this book offers practical strategies for choosing optimism when it matters most—especially when it feels hardest.

Readers will learn how to:

- Use optimism as a skill—not a personality trait—to navigate uncertainty and setbacks
- Build belief in themselves when the odds feel stacked against them
- Turn optimism into motivation, and motivation into meaningful action
- Apply optimism in everyday life, from personal decisions to professional challenges
- Create a ripple effect of hope that strengthens relationships, teams, and communities

Optimism, Grace argues, isn't about ignoring reality. It's about engaging with it more fully. When you learn to root for yourself, you don't just change your own life—you help create a future worth believing in.

GRACE VANDERHEI is an athlete, engineer, musician, and a former Miss America all in one, known for breaking misconceptions on nuclear energy through social media, public engagements, and educational workshops. During her year as Miss America 2023, Grace was named the New Face of Nuclear Energy by *The Wall Street Journal* and was on the Forbes 30 under 30 list for Energy.

Dear Anxious Woman

A Therapist's Letters for Women with High-Functioning Anxiety

KELLY VINCENT

A compassionate guide for the woman who never stops trying.

She's the woman everyone counts on—capable, accomplished, and dependable. On the outside, it looks like she has it all together, but on the inside she knows the truth. She's exhausted. What's more, she's caught in cycles of overthinking, perfectionism, and self-doubt.

This is High-Functioning Anxiety—and if you recognize yourself here, this book was written for you.

Dear Anxious Woman isn't another checklist or step-by-step plan to "fix" yourself. Instead, it's a deeply human conversation: a collection of heartfelt letters from a therapist who understands what it's like to be the strong one, the reliable one, the woman who holds everything together.

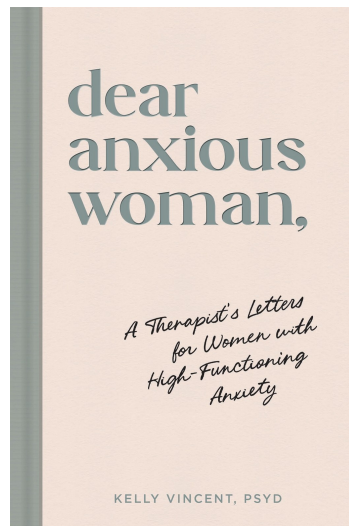

Through real client stories, personal reflections, and evidence-based healing tools, each chapter speaks directly to a different part of the high-functioning anxiety experience—perfectionism, people-pleasing, overthinking, difficulty resting, fear of failure, and more. You'll meet women who feel like they're always falling behind, who can't say no, who carry everyone else's needs while ignoring their own—and see yourself in their stories.

In these pages, you'll learn how to:

- recognize the hidden patterns driving your anxiety, and finally see your specific version of it named and understood
- understand the psychology and research behind why you cope the way you do
- explore practical tools to support your nervous system instead of pushing through
- get permission to soften, not just more strategies to perform better
- feel capable without feeling certain
- uncover your authentic self underneath all those protective layers

If you're tired of managing your anxiety instead of understanding it—tired of being the strong one who never gets to rest—*Dear Anxious Woman* offers a compassionate path forward.

You don't have to hold it all together anymore.

It isn't being talked about on TikTok, Instagram, or Snapchat. And yet the rumor has grown. Kids are whispering about it in dark corners of the school hallways, the far end of the lunch tables, and obscure online forums. The rumor is, there's an app that can fix any problem a kid could have: bullying, BFF drama, body issues, and more. The app is called ShadowSync, and like most things, it comes at a cost...

Twelve-year-old Josh is grieving the death of his father, but also finds he has lost his mom to her paralyzing sadness and depression. When his friend tells him about the ShadowSync app, he decides to try it. To get access, all he has to do is upload a video confession of a secret that nobody knows. Desperate to help his mom, Josh shares a secret and downloads the app. He discovers it has an interface that lets him control his mom's emotions—literally sliding her sadness down and happiness up. At first, it seems like magic. But soon things spiral out of control and Josh learns there's no shortcut to working through our feelings and human connection.

The Monster Hunter's Daughter

LAURA M. ROCHA

A magical middle-grade adventure inspired by Mexican folklore traditions about a clever and plucky heroine, Valentina, who lives in a village with mysterious and wildly colorful beasts known as alebrijes. When Valentina goes on a quest to help save her injured brother, she learns the secrets behind these fantastical creatures.

Valentina was born to hunt monsters. Alebrijes—colorful, otherworldly creatures that look like a carnival and a zoo exploded on each other—may seem fantastical, sometimes even cute, but Valentina knows that these creatures can be vicious and deadly. They have already done more damage to her family than she can bring herself to speak about.

Vale intends to follow in her monster hunter father's footsteps and work to rid her home—Bahia de Deseos—of these threats. So when her father is hurt while hunting an alebrije, she and her brother Diego—who's been silent since their mother's death—step up to help.

But what may have been a routine job for their father, for Valentina and Diego becomes a journey into the wilds of the jungle surrounding their small village, and into the heart of the magic they've been told is gone forever. And when Diego is hurt, Valentina must put aside everything she thought was solid—about family, friends, and the monstrous alebrijes themselves—to save him.

Rage of Angels

LOLA STVIL

An addictive YA fantasy romance series starter with massive binge potential, when a teen is attacked by a horde of Demons who want a secret only she possesses, she must rely on a group of undercover Angels to save her. But who will protect her heart from their magnetic and very off-limits leader?

Behold the kiss that ends the world...

I'm a proud bookworm—jealous of the heroines I read about. They're brave, bold, and always off saving the world. Me? The bravest thing I've ever done is drink milk two days past its expiration date. My life is safe, simple, and spectacularly boring.

Until...

I'm attacked by a horde of Demons—and saved by the Japanese twins from my history class. Turns out, they're Angels. Literally. Part of a six-member team sent to Earth to find me.

Wait, what?

Apparently, I'm keeping a secret I don't even know I have. And if the Demons uncover it before the Angels do, they'll bring Hell to Earth.

The twins take me to their leader, Marcus Cane—stubborn, bossy, and impossibly hot. When he's near, I can't breathe. When he's gone, I panic. But we could never be together. He's the most powerful Angel alive. I'm... well, just me.

Oh, and he already has a girlfriend—beautiful, brilliant, and deadly. That should've kept us apart. It didn't.

Broken Vows

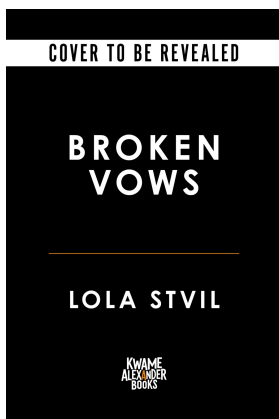

LOLA STVIL

The explosive second installment in Lola StVil's paranormal romance saga. When love falls apart, even angels can become dangerous. The romance gets darker, the stakes get higher, and revenge changes everything.

"Just because she has wings, doesn't mean she's an Angel..."

The fallout from a certain team member's action, leaves the team headed for a battle they could very well lose...

"A human he can't stay away from. An Angel she can't live without. A love fated to end the world."

How to Meddle with Magic and Not Get Murdered

JULIA EMBER

***Wednesday* meets *A Good Girl's Guide to Murder* in this humorous spoof of the dark academia genre about three students at a boarding school for cursed teenagers who must team up to solve the murder of their guidance counselor before their own curses kill them.**

When Ophelia arrives at St Benedict's Academy for the Cursed as its first scholarship student, she knows to expect the absurdity of the curses, but she isn't prepared for the ridiculousness of the wealth. Feeling desperately out of place, she clings on to her reason for coming—to see her aunt, who works as a guidance counselor, one final time before Ophelia's death curse comes to its bloody conclusion. But before they can reunite, Ophelia's aunt is murdered.

Eva is becoming plastic bit by bit and for the first time in her life, money isn't solving her problems. The guidance counselor swears she has a solution—except she turns up dead before she can reveal it. Worse, someone has stolen her laptop, with all her session notes, which held the key to breaking Eva's curse.

When Ru finds the dead body of his guidance counselor, he does what he always does—calls Eva to fix things. But Eva can't fix death, and as it becomes clear that the counselor's death was a murder dismissed as an accident by the local police, Eva, Ru, and Ophelia decide to take matters into their own hands.

They're going to find out who killed the guidance counselor—if their own curses don't kill them first.

Goldie Moore has spent her life living out dreams that never belonged to her. After confronting her parents, who had pushed their fame-hungry desires onto her, she finally gets to live a life un-scripted. Now at Liberty Grove—the East Coast's most coveted college—Goldie is where she always knew she'd thrive. He's the storm she didn't prepare for—an undeniably magnetic indie rockstar haunted by bad decisions, wrong crowds, and a secret that weighs heavy on his heart.

But keeping his past hidden becomes impossible when he meets Goldie, the girl who makes him feel seen in a way he didn't know he craved.

When an offer is made to pretend to date each other to conceal both of the parts of themselves that they want to keep hidden, the lines between real life and the one they share in the shadows of Liberty Grove get pushed further into the darkness, making them wonder... can you ever fake love with a soul that burns just as brightly as your own?

Born Lucky

LUCKY KARIM

The first ever memoir published by a Rohingya woman, this profound memoir tells the inspiring and true story of Lucky Karim, a teen refugee from Myanmar, and her journey of persecution, survival, and resilience.

At age 13, Lucky Karim watched as military officials ransacked her home and yelled at her family in a language she could not understand. One year later, she found herself on the run as genocidal attacks against her people—the stateless Rohingya in Myanmar—rain down on her village, with no end in sight. The year is 2017.

In the first memoir published by a Rohingya woman, Lucky tells her story of growing up Rohingya, an ethnic Muslim minority in Myanmar, and escaping to the world's largest refugee camp in Bangladesh. Driven by her love of learning, frustration with the limited rights of women and girls, and concern for the futures of her family and people, Lucky fought hard for her education and that of her younger brothers. She became the family's primary breadwinner as she began her career as a humanitarian worker at just fourteen years old, learning English and Bangla to advocate for the Rohingya people in the camp. Soon, Lucky became one of the only refugee girls to attend university in Bangladesh, and there developed a voice as a human rights advocate. Because of her public role and gender, she faced threats from terrorist armed groups, forcing her family into hiding for two years while seeking refuge, before becoming one of the first Rohingya families to resettle in the United States in 2023.

Now, Lucky is sharing her story with the world.

She Who Makes Monsters (Deluxe Edition)

CATHERINE WIGNALL

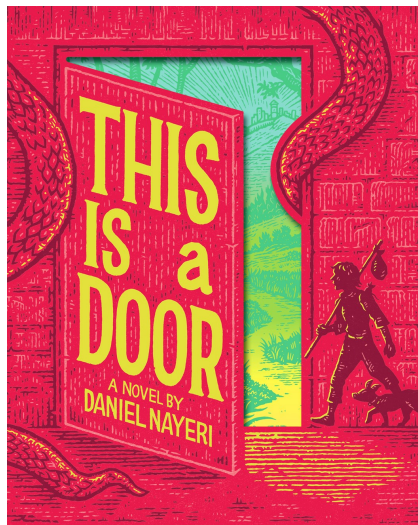

Frankenstein wasn't the beginning of Mary Shelley's story—it was the end. *She Who Makes Monsters* is a darkly romantic YA gothic fantasy about power, legacy, and the perilous seduction of rewriting fate.

Seventeen-year-old Mary Wollstonecraft Godwin is no stranger to scandal—after all, her mother was the original feminist firebrand and her father won't stop publishing about it. But Mary has ambitions of her own: she wants to write, to love dangerously, and above all, to choose the shape of her future. When she's caught in an illicit entanglement with the infamous poet Percy Shelley, her father threatens to banish her to a dreary life as a governess in Ireland. That is, until Mary discovers her true inheritance: a blood-bound grimoire hidden in her dead mother's belongings and a family secret steeped in resurrection.

With ink on her fingers and a monster brewing in her chest, Mary flees England, determined to bring her mother back from the dead and rewrite the future that was stolen from them both. But necromancy is an art of sacrifice—and as Mary deepens her command of this ancient alchemy, her obsession corrodes everything in her path: her friendships, her first love, and the line between creation and corruption.

ISA BENISTON

Meet Cowgirl. She's just like every other dog—except when she's not. A beloved online personality with merchandise sold nationwide, Cowgirl brings her devoted fanbase—and star personality—to this highly giftable picture book debut by author-illustrator Isa Beniston (aka Gentle Thrills).

Cowgirl is looking for a home. Teeny is looking for a dog. Could they be the perfect match for one another?

Teeny has read all the books about raising a dog, but *nothing* could have prepared her for Cowgirl. She comes with her own accessories (the pink belt goes with everything). She refuses to sleep on the dog bed (far too small). She speaks with a twang (a side effect of missing a few teeth). She's a fine artist, a bath avoider, an avid reader—and always, a very good dog.

But like all good dogs, Cowgirl needs to go outside...and soon, a quick potty break spirals into a hilarious quest through the entire town to find a relief spot worthy of Cowgirl's impeccable standards.

Welcome to Critter City #1

JOSH FISHER AND HEATHER ALEXANDER, ILLUSTRATED BY BILL LEDGER

Paw Patrol meets *Richard Scarry* meets *Zootopia* in this new picture book series about how towns and communities work together.

Critter City's newest neighbor Gertie can't understand why the town has no rules. But she knows that everything can work if everyone works together!

With funny animal crittizens populating Critter City and themes like elections, traffic rules, emergencies, and libraries, young readers will discover why we need the rules and order of society through some of their favorite topics—cars and fire trucks and vehicles that go, everyday heroes like firefighters and teachers, and familiar events like doctor's visits and grocery shopping—without ever feeling like they're learning a lesson.
